The Encyclopedia of New York State is one of the most complete works on the Empire State to be published in a half-century. In nearly 2,000 pages and 4,000 signed entries, this single volume captures the impressive complexity of New York State as a historic crossroads of people and ideas, as a cradle of abolitionism and feminism, and as an apex of modern urban, suburban, and rural life. The Encyclopedia is packed with fascinating details from fields ranging from sociology and geography to history. Did you know that Manhattan's Lower East Side was once the most populated neighborhood in the world, but Hamilton County in the Adirondacks is the least densely populated county east of the Mississippi; New York is the only state to border both the Great Lakes and the Atlantic Ocean; the Erie Canal opened New York City to rich farmland upstate . . . and to the west. Entries by experts chronicle New York's varied areas, politics, and persuasions with a cornucopia of subjects from environmentalism to higher education to railroads, weaving the state's diverse regions and peoples into one idea of New York State. Lavishly illustrated with 500 photographs and figures, 120 maps, and 140 tables, the Encyclopedia is key to understanding the state's past, present, and future. It is a crucial reference for students, teachers, historians, and business people, for New Yorkers of all persuasions, and for anyone interested in finding out more about New York State.

There has to be accountability at every level of the organization from the chief to the rookie.

Company officers have to step up and remind those under their command of safe operations and related procedures. Accountability at all levels is key to the success of any program, and it's the key to survival when it comes to firefighter safety. Chief Ron Kanterman's Fire Officer's Guide to Occupational Safety & Health is a guide to safe operations and a healthy work force. Who needs this book? Fire chiefs, fire officers, incident safety officers, and health and safety officers Why? To gain the tools they need to operate the department within some acceptable parameters of safety and occupational health Ask yourself these questions: --Have you made firefighter safety and health a primary value of your organization? --Is there a culture of safety in your fire department? - -Do the chief and line officers "walk the walk" and "talk the talk"? Key concepts and resources: -- Risk management --Personnel protection (protecting the protectors) --Scene safety --The 16 Life Safety Initiatives and The Courage to be Safe/Everyone Goes Home program --Training -- Occupational safety and health --Fitness --Codes and standards that dictate and/or assist within the genre of health and safety

The fourth edition of Fire Officer: Principles and Practice was significantly updated and reorganized to better serve the Fire Officer I and Fire Officer II. The content meets and exceeds the job performance requirements for Fire Officer I and II in the 2020 Edition of NFPA 1021, Standard for Fire Officer Professional Qualifications. The new edition places an emphasis on the application of leadership traits and management theories, common leadership and management challenges, and

how leadership is used to meet objectives. The basic principles and methods of Community Risk Reduction are also discussed. In addition, the program now has two distinct sections: Section One includes eight chapters, which set the foundation for Fire Officer I knowledge and understanding. Section Two comprises six chapters, which encompass the higher level competencies required for Fire Officer II. This new organization will allow you the flexibility to teach your Fire Officer I and II course(s) exactly the way you wish.

The Site May 30, 2002 "How will we ever get through this?" is the question I asked on the night of September 11. "How?" Maybe the answer is here, all around me. Not just in the cleanup, not just in the purpose demonstrated by all who came and labored in these months. The answer is in the enduring spirits of all assembled here. That, for me, is the miracle in all of this: having looked horror in the face, we bear the pain without losing heart. -- Thomas Von Essen
