Desegregation of the U.S. Armed Forces ABC-CLIO

This study examines the Hmong community's role in the US war in Laos and their eventual resettlement in the United States. In particular, it analyzes their process of acculturation into American society since the 1970s, their reception by the American people and government, and the creation of Hmong enclaves throughout the country.

As U.S. military forces appear overcommitted and some ponder a possible return to the draft, the timing is ideal for a review of how the American military transformed itself over the past five decades, from a poorly disciplined force of conscripts and draft-motivated "volunteers" to a force of professionals revered throughout the world. Starting in the early 1960s, this account runs through the current war in Iraq, with alternating chapters on

the history of the all-volunteer force and the analytic background that supported decisionmaking. The author participated as an analyst and government policymaker in many of the events covered in this book. His insider status and access offer a behind-the-scenes look at decisionmaking within the Pentagon and White House. The book includes a foreword by former Secretary of Defense Melvin R. Laird. The accompanying DVD contains more than 1,700 primary-source documents-government memoranda, Presidential memos and letters, staff papers, and reports-linked directly from citations in the electronic version of the book. This unique technology presents a treasure trove of materials for specialists, researchers, and students of military history, public administration, and government affairs to draw upon.

Army RD & A Bulletin OR Books

The platoon leader and platoon sergeant are two of the most important leaders in the U.S. Army. The way platoon leaders and sergeants work together as a team can cause the success or failure of companies, battalions, brigades, and divisions. They represent the leading edge of leadership on and off the battlefield. On the battlefield, platoon leaders and sergeants build their platoons, empower squad leaders, integrate outside elements, and use troop-leading procedures to plan and lead. Off the battlefield, platoon leaders and sergeants prepare their platoon for combat through tough training. The platoon leader and platoon sergeant's ability to coach, teach, and mentor their Soldiers leads directly to the readiness of our formations. World-wide, platoon leaders and sergeants are personally leading the U.S. Army at the lowest level. This handbook is a guide for new leaders to help prepare them for a critical crucible of leadership that will determine the U.S. Army's ability to fight and win our country's wars.

She flew the swift P-51 and the capricious P-38, but the heavy, four-engine B-17 bomber and C-54 transport were her forte. This is the story of Nancy Harkness Love who, early in World War II, recruited and led the first group of twenty-eight women to fly military aircraft for the U.S. Army. When the United States entered World War II, the Army needed pilots to transport or "ferry" its combat-bound aircraft across the United States for overseas deployment and its trainer airplanes to flight training bases. Most male pilots were assigned to combat preparation, leaving few available for ferrying jobs. Into this vacuum stepped Nancy Love and her civilian Women's Auxiliary Ferrying Squadron (WAFS). Love had advocated using women as ferry pilots as early as 1940. Jackie Cochran envisioned a more ambitious plan, to train women to perform a variety of the military's flight-related jobs stateside. The Army implemented both programs in the fall of 1942, but Jackie's idea piqued General Hap Arnold's interest and, by summer 1943, her concept had won. The women's programs became one under the name Women Airforce Service Pilots (WASP), with Cochran as the Director of Women Pilots and Love as the Executive for WASP. Nancy Love believed that the women attached to the military needed to be on equal footing with the men and given the same opportunities to prove their abilities and mettle. Young women serving today as combat pilots owe much to Love for creating the opportunity for women to serve. Her foresight and tenacity nearly seventy years ago helped ensure their future. Now author Sarah Byrn Rickman, aviation historian, presents the first full-length biography of Nancy Love and her role in the WAFS and WASP programs. Her book will appeal to all with a love of flight.

The Purge of the Thirtieth Division by Major General Henry Dozier Russell is the only known written work by any of the eighteen National Guard division commanders mobilized in 1940 and 1941. It chronicles from a National Guard perspective many of the challenges and growing pains experienced by the Army in the critical months leading up to its entry into World War II. Through Russell, the reader gains insight into the vast cultural differences between the Regular Army and the National Guard at the time. Russell's memoir offer an invaluable source of a commander's first-hand account of how his division trained and fared during the 1940 Louisiana Maneuvers, and 1941 Tennessee and Carolina Maneuvers, respectively, in its preparation for overseas deployment. The narrative also contains a compelling account of the relations and tensions between Regulars and National Guardsmen. It was a scathing indictment of the Regular Army high command for what he perceived to be unfair treatment of National Guard officers during World War II. He cited many examples to bolster his claims, and contended that the U.S. Army, under Chief of Staff George C. Marshall, was out to "get" the Thirtieth Division and other National Guard divisions. He further contended that the Army believed that a non-Regular officer should not advance beyond the grade of lieutenant colonel. His memoir, which he privately printed, pulled no punches. His first-hand account was very critical of how a number of senior Regular Army officers handled affairs with his division that led to his relief as the division commander. Russell completed his memoir in 1947 and subsequently printed 500 copies, which he distributed to senior National Guard officers. He did not sell any of the books, nor were they intended for or made available to the general public. Although there was a demand for additional copies, he did not print any more. The republication of *The Purge of the Thirtieth Division* is intended to expand the scholarship on the history of World War II and the history of the U.S. Army.

"We request an immediate favour of you, to build a shelter for us women and small children, because we have absolutely no place to take refuge and we are terrified!" This French mother's petition sent to her mayor on the eve of Germany's 1940 invasion of France reveals civilians' security concerns unleashed by the Blitzkrieg fighting tactics of World War II. Unprepared for air warfare's assault on civilian psyches, French planners were among the first in history to respond to civilian security challenges posed by aerial bombardment. *France under Fire* offers a social, political and military examination of the origins of the French refugee crisis of 1940, a mass displacement of eight million civilians fleeing German combatants. Scattered throughout a divided France, refugees turned to German Occupation officials and Vichy administrators for relief and repatriation. Their solutions raised questions about occupying powers' obligations to civilians and elicited new definitions of refugees' rights.

The Final Memoranda Lexington Books

This book looks at several troop categories based on primary function and analyzes the ratio between these categories to develop a general historical ratio. This ratio is called the Tooth-to-Tail Ratio. McGrath's study finds that this ratio, among types of deployed US forces, has steadily declined since World War II, just as the nature of warfare itself has changed. At the same time, the percentage of deployed forces devoted to logistics functions and to base and life support functions have increased, especially with the advent of the large-scale of use of civilian contractors. This work provides a unique analysis of the size and composition of military forces as found in historical patterns. Extensively illustrated with charts, diagrams, and tables. The Holocaust—one of the most horrific examples of man's inhumanity to man in recorded history—resulted in the genocide of millions of people, most of them Jews. This volume explores the daily lives of the Holocaust victims and their heroic efforts to maintain a normal existence under inhumane conditions. Readers will learn about the effects of pogroms, Jewish ghettos, Nazi rule, and deportation on everyday tasks like going to school, practicing religion, or eating dinner. Chapters on life in the concentration camps describe the incomprehensible conditions that plagued the inmates and the ways in which they managed to survive. Soumerai, a survivor herself, offers a unique perspective on the events. Coverage also includes accounts of resistance and the role of rescuers. Four new chapters explore current human rights abuses, including Holocaust denials, modern genocide, and human trafficking, enabling readers to contrast present and past events. In addition to a timeline, a glossary, and engaging illustrations, the second edition also features an extensive bibliography and resource center that guides student researchers toward web sites, organizations, films, and books on the Holocaust and other human rights abuses. Primary source testimonies from survivors provide powerful insight into the devastating effects of Nazi rule on people's lives. Soumerai, a survivor herself, offers a unique perspective on the events and insight into the persecution of non-Jews: Gypsies, gays, clergy who protested or protected victims, Communists, Jehovah's Witnesses, the mentally ill and handicapped. Readers will explore the effects of pogroms, Jewish ghettos, Nazi rule, and deportation on everyday tasks like going to school, practicing religion, or eating dinner. Chapters on life in the concentration camps describe the incomprehensible conditions within the camps, including the ways in which inmates managed to survive: avoiding the infirmary, rationing food, utilizing the market system to trade for goods and clothing. Four new chapters shed a modern light on the events of the Holocaust, exploring human rights abuses that continue even today, including Holocaust Denials; genocide in Cambodia, Rwanda, and Sudan; and child slavery and human trafficking. The new material allows readers to compare and contrast present and past human rights abuses, exploring what lessons we have learned, if any, from the Holocaust. An expanded bibliography and resource center guides readers toward related web sites, organizations, films and books related to the Holocaust, modern-day slavery and genocide, child soldiers, and related human rights topics. Illustrations, a timeline of events and a glossary of terms are also included, making this a comprehensive resource for student researchers.

Army Barracks Management Program (ABMP) Handbook describes the management of Unaccompanied Housing to support the needs of unaccompanied soldiers based on lessons learned and provides a uniform standard based on the needs of the Army and its soldiers. The ABMP supports the forming of adaptive partnerships between garrison staff and military unit leaders and capitalizes on the increased presence of military leaders at installations by emphasizing the unit's responsibility for the day-to-day management of permanent party barracks to enable leaders to effectively monitor the morale, health, welfare and discipline of their soldiers. Why buy a book you can download for free? We print this book so you don't have to. First you gotta find a good clean (legible) copy and make sure it's the latest version (not always easy). Some documents found on the web are missing some pages or the image quality is so poor, they are difficult to read. We look over each document carefully and replace poor quality images by going back to the original source document. We proof each document to make sure it's all there - including all changes. If you find a good copy, you could print it using a network printer you share with 100 other people (typically its either out of paper or toner). If it's just a 10-page document, no problem, but if it's 250-pages, you will need to punch 3 holes in all those pages and put it in a 3-ring binder. Takes at least an hour. It's much more cost-effective to just order the latest version from Amazon.com This book includes original commentary which is copyright material. Note that government documents are in the public domain. We print these large documents as a service so you don't have to. The books are compact, tightly-bound, full-size (8 1/2 by 11 inches), with large text and glossy covers. 4th Watch Publishing Co. is a SDVOSB. This regulation encompasses garrison, field, and subsistence supply operations. Specifically, this regulation comprises Army Staff and major Army command responsibilities and includes responsibilities for the Installation Management Command and subordinate regions. It also establishes policy for the adoption of an à la carte dining facility and for watercraft to provide subsistence when underway or in dock. Additionally, the regulation identifies DOD 7000.14-R as the source of meal rates for reimbursement purposes; delegates the approval authority for catered meals and host nation meals from Headquarters, Department of the Army to the Army commands; and authorizes the use of the Government purchase card for subsistence purchases when in the best interest of the Government. This regulation allows prime vendors as the source of garrison supply and pricing and provides garrison menu standards in accordance with The Surgeon General's nutrition standards for feeding military personnel. Also, included is guidance for the implementation of the U.S. Department of Agriculture Food Recovery Program.
