In October 1994, fifty-three members of the Order of the Solar Temple in Switzerland and Québec were murdered or committed suicide. This incident and two later group suicides in subsequent years played a pivotal role in inflaming the cult controversy in Europe, influencing the public to support harsher actions against non-traditional religions. Despite the importance of the Order of the Solar Temple, there are relatively few studies published in English. This book brings together the best scholarship on the Solar Temple including newly commissioned pieces from leading scholars, a selection of Solar Temple documents, and important previously published articles newly edited for inclusion within this book. This is the first book-length study of the Order of the Solar Temple to be published in English.

For years, Derrick Jensen has asked his audiences, "Do you think this culture will undergo a voluntary transformation to a sane and sustainable way of life?" No one ever says yes. Deep Green Resistance starts where the environmental movement leaves off: industrial civilization is incompatible with life. Technology can't fix it, and shopping—no matter how green—won't stop it. To save this planet, we need a serious resistance movement that can bring down the industrial economy. Deep Green Resistance evaluates strategic options for resistance, from nonviolence to guerrilla warfare, and the conditions required for those options to be successful. It provides an exploration of organizational structures, recruitment, security, and target selection for both aboveground and underground action. Deep Green Resistance also discusses a culture of resistance and the crucial support role that it can play. Deep Green Resistance is a plan of action for anyone determined to fight for this planet—and win.

Mission: Survive the Holidays A Mountie Brotherhood story Cally Roslin came to northern British Columbia to enjoy a charming Canadian Christmas—until somebody tries to kill her. But when she becomes the target of multiple attacks, Aaron Thrace, the handsome Mountie assigned to protect her, is certain it's no coincidence. Danger is swiftly closing in on Cally, and with hazardous snowstorms on the horizon, there'll soon be no place to run...

Christmas Under Fire (Mills & Boon Love Inspired Suspense) (Mountie Brotherhood) HarperCollins UK

REUNION ON THE RUN When her apartment is besieged by masked gunmen, Yasmine Browder's convinced it's tied to her investigation into her brother's "accidental" death three weeks ago. Narrowly escaping, she flags down the car of a passerby she thought she'd never see again—her

childhood crush. Unlike the local police, newly minted FBI agent Noel Black doesn't believe the attack is a coincidence, especially when the attempts on her life don't stop. Yasmine's onto the truth about her brother, and someone powerful wants her dead. With nobody to trust and just days out of training, Noel must find a way to keep her alive...because now that he's found Yasmine, he refuses to lose her again.

FORGOTTEN MEMORIES None of her training prepares astronaut Natasha Stark for what she wakes up to three weeks after her groundbreaking space voyage: a target on her back—and no memories. But there's something oddly familiar about the FBI agent who rescues her. Christopher Barton can't believe he drew the mission of safeguarding his long-ago fiancée and her daughter—a child he has every reason to believe is his. To learn the truth, though, he has to help Natasha regain her memory. But with threats mounting against the family he hopes to join, Chris is running out of time to take down the assailants before they kill the woman he never forgot and the child he never knew existed.

This is the Final Report of Canada's Truth and Reconciliation Commission and its six-year investigation of the residential school system for Aboriginal youth and the legacy of these schools. This report, the summary volume, includes the history of residential schools, the legacy of that school system, and the full text of the Commission's 94 recommendations for action to address that legacy. This report lays bare a part of Canada's history that until recently was little-known to most non-Aboriginal Canadians. The Commission discusses the logic of the colonization of Canada's territories, and why and how policy and practice developed to end the existence of distinct societies of Aboriginal peoples. Using brief excerpts from the powerful testimony heard from Survivors, this report documents the residential school system which forced children into institutions where they were forbidden to speak their language, required to discard their clothing in favour of institutional wear, given inadequate food, housed in inferior and fire-prone buildings, required to work when they should have been studying, and subjected to emotional, psychological and often physical abuse. In this setting, cruel punishments were all too common, as was sexual abuse. More than 30,000 Survivors have been compensated financially by the Government of Canada for their experiences in residential schools, but the legacy of this experience is ongoing today. This report explains the links to high rates of Aboriginal children being taken from their families, abuse of drugs and alcohol, and high rates of suicide. The report documents the drastic decline in the presence of Aboriginal languages, even as Survivors and others work to maintain their distinctive cultures, traditions, and governance. The report offers 94 calls to action on the part of governments, churches, public institutions and non-Aboriginal Canadians as a path to meaningful reconciliation of Canada today with Aboriginal citizens. Even though the historical experience of residential schools constituted an act of cultural genocide by Canadian government authorities, the United Nation's declaration of the rights of aboriginal peoples and the specific recommendations of the Commission offer a path to

move from apology for these events to true reconciliation that can be embraced by all Canadians.

The bestselling cyberpunk author "has produced by far the most stylish report from the computer outlaw culture since Steven Levy's Hackers" (Publishers Weekly). Bruce Sterling delves into the world of high-tech crime and punishment in one of the first books to explore the cyberspace breaches that threaten national security. From the crash of AT&T's long-distance switching system to corporate cyberattacks, he investigates government and law enforcement efforts to break the back of America's electronic underground in the 1990s. In this modern classic, "Sterling makes the hackers—who live in the ether between terminals under noms de net such as VaxCat—as vivid as Wyatt Earp and Doc Holliday. His book goes a long way towards explaining the emerging digital world and its ethos" (Publishers Weekly). This edition features a new preface by the author that analyzes the sobering increase in computer crime over the twenty-five years since The Hacker Crackdown was first published. "Offbeat and brilliant." —Booklist "Thoroughly researched, this account of the government's crackdown on the nebulous but growing computer-underground provides a thoughtful report on the laws and rights being defined on the virtual frontier of cyberspace. . . . An enjoyable, informative, and (as the first mainstream treatment of the subject) potentially important book . . . Sterling is a fine and knowledgeable guide to this strange new world."

—Kirkus Reviews "A well-balanced look at this new group of civil libertarians. Written with humor and intelligence, this book is highly recommended." —Library Journal

Dennis Banks, an American Indian of the Ojibwa Tribe and a founder of the American Indian Movement, is one of the most influential Indian leaders of our time. In *Ojibwa Warrior*, written with acclaimed writer and photographer Richard Erdoes, Banks tells his own story for the first time and also traces the rise of the American Indian Movement (AIM). The authors present an insider's understanding of AIM protest events—the Trail of Broken Treaties march to Washington, D.C.; the resulting takeover of the BIA building; the riot at Custer, South Dakota; and the 1973 standoff at Wounded Knee. Enhancing the narrative are dramatic photographs, most taken by Richard Erdoes, depicting key people and events.

Perogies and Politics Harlequin

In *Perogies and Politics*, Rhonda Hinder explores the twentieth-century history of the Ukrainian left in Canada from the standpoint of the women, men, and children who formed and fostered it. For twentieth-century leftist Ukrainians, culture and politics were inextricably linked. The interaction of Ukrainian socio-cultural identity with Marxist-Leninism resulted in one of the most dynamic national working-class movements Canada has ever known. The Ukrainian left's success lay in its ability to

meet the needs of and speak in meaningful, respectful, and empowering ways to its supporters' experiences and interests as individuals and as members of a distinct immigrant working-class community. This offered to Ukrainians a radical social, cultural, and political alternative to the fledgling Ukrainian churches and right-wing Ukrainian nationalist movements. Hinthier's colourful and in-depth work reveals how left-wing Ukrainians were affected by changing social, economic, and political forces and how they in turn responded to and challenged these forces.??

Emotions work to define who we are as well as shape what we do and this is no more powerfully at play than in the world of politics. Ahmed considers how emotions keep us invested in relationships of power, and also shows how this use of emotion could be crucial to areas such as feminist and queer politics. Debates on international terrorism, asylum and migration, as well as reconciliation and reparation, are explored through topical case studies. In this book the difficult issues are confronted head on. The Cultural Politics of Emotion is in dialogue with recent literature on emotions within gender studies, cultural studies, sociology, psychology and philosophy. Throughout the book, Ahmed develops a theory of how emotions work, and the effects they have on our day-to-day lives. New for this edition A substantial 15,000-word Afterword on 'Emotions and Their Objects' which provides an original contribution to the burgeoning field of affect studies A revised Bibliography Updated throughout.

Indigenous Peoples and the Second World War Harlequin

"In June 2007, the Fraser Institute held a conference in Toronto, Ontario, titled, "Immigration Policy, Border Controls, and the Terrorist Threat In Canada and the United States." The chapters in this volume, which arose from this conference, raise fundamental questions about weaknesses in Canada's current immigration policies and procedures." "The contributors to this volume identify serious threats and weaknesses in the immigration, asylum, and border regimes from both Canadian and American perspectives. The authors are not opposed to effectively managed immigration or allowing genuine refugees who pose no security threat to enter the country through a well-vetted system. All believe that the vast majority of immigrants pose no danger, but are simply seeking to improve their freedom and prosperity. Nevertheless given the stakes raised by terrorist attacks, the entry of even a small number of potentially dangerous individuals should warrant major attention and policy review."--BOOK JACKET.
