THE BROCKEN EGG OF LEGACY IMAJBooks

The Broken Egg of Legacy is the story of Raghav Sharma, a young eighteen-year-old boy from a well-to-do barrister family. His father is a high court judge, and his grandfather is a retired barrister of the Supreme Court. On his mother's side, his cousin is a serving MLA and his uncle is an influential man. Raghav despises his family legacy, his traditions and customs. He decides to leave behind politics and law and choose a different path for himself. He wants to pursue Automotive engineering, but is forced to pursue an additional law degree to keep up with the family legacy. He despises his family name and wishes to achieve something good in his life through his own efforts. Raghav realizes his true potential once he reaches college. He meets Om, Rajveer, Millind, and Aashutosh, all from different backgrounds, who become his friends for life. He leads his team to victory in the college council elections and discovers that he has amazing leadership qualities. He visits Om's remote tribal village and deftly solves the grass root level problems. This experience makes him grow as a person. In college, Raghav meets the love of his life Aarushi, the most precious and beautiful thing in his life. Aarushi is a senior at his college and the most beautiful girl in college. They both fall in love at first sight, but she comes from a typical marvadi joint family. Her family forbids her from marrying a boy from another caste. As the two love birds struggle to convince her parents, they realize the true meaning of love is setting the other person free, even if means to give up on one's own happiness. The schism that arises compels Raghav to rediscover the meaning of life as he tries to find his way in life. He visits his ancestral home, where he discovers that the thing that he despised all his life, his legacy, is a result of great sacrifices made by his forefathers. He finally feels at peace with his roots and accepts and embraces his identity.

This book reconsiders the supposed impossibility of deriving "Ought" from "Is". John R. Searle's 1964 article How to Derive "Ought" from "Is" sent shockwaves through the philosophical community by offering a straightforward counterexample to this claim of impossibility: from your promising something- and this is an "is" - it simply follows that you "ought" to do it. This volume opens with a brand new chapter from Searle who, in light of his subsequent philosophical developments, expounds the reasons for the validity of that derivation and its crucial significance for social ontology and moral philosophy. Then, in a fresh interview with the editors of this volume, Searle explores a range of topics including how his derivation relates to constitutive rules, and how he views Wittgenstein's philosophy, deontic logic, and the rationality of action. The remainder of the volume is dedicated to a deep dive into Searle's essay and its implications by international scholars with diverse backgrounds ranging from analytic philosophy, phenomenology, and logic, to moral philosophy and the philosophy and sociology of law. With thirteen original chapters, the contributors provide fresh and timely insights on hotly debated issues: the nature of "Ought"; the logical

structure of the social world; and the possibility of deriving not only "Ought" from "Is", but "Is" from "Ought".

Appearances of Soviet Leaders Manchester University Press

Aung San Suu Kyi spoke passionately about non-violence, she wrote involved articles about compatibility of democracy with Buddhism and she won the hearts and minds of so many with her call for the freedom from fear (...) It seemed - for more than two decades - that Suu Kyi was a perfect, non-Western propagator of democracy, human rights, rule of law (...) Yet a deeper analysis reveals that Suu Kyi intellectually, indeed, has been a democrat all along, but a Burmese democrat (...) Suu Kyi understands democracy in a Buddhist way and she reasons about politics using Buddhist ideas, idioms and concepts (...) This Buddhist dominance of her political thought had several consequences, the most important one being that her approach to politics has first and foremost been a moral one (...) her vision of democracy (and of politics in general) is a moral vision. It is something I propose to call "the moral democracy." The same reason that made her famous and admired worldwide, now contributed to her fall from grace. For too many outside Burma/Myanmar it is impossible to understand how Suu Kyi - yesterday's global personification of good and morality - can now silently endorse crimes against humanity conducted in her country and accept forced relocation of 700 thousand people. A cynic would quote Bertrand Russell's words ("we have two kinds of morality side by side: one which we preach but do not practice and another which we practice but seldom preach") and add a commentary that it applies especially to politicians. One, however, may offer a more favourable explanation: that Suu Kyi represents a tragic clash of ideas, including moral ideas, with political reality. Whatever the case, it was morality that made her famous, it was the same moralistic attitude that contributed to her removal from international

Olympus and it is this moral understanding of politics that is the hallmark of her political thought, which is here to stay for longer, as political ideas last longer than changing political circumstances and fashions. From the Preface The dramatic fall from grace of Burma's human rights icon Aung San Suu Kyi shocked the world. Michał Lubina's magisterial account of Aung San Suu Kyi's political education demystifies the behavior in power of this otherwise enigmatic leader. This is the indispensable book for anyone who wants to understand the mind of one of the world's most controversial women. Prof. Salvatore Babones, University of Sydney Dr. Michał Lubina, known in Poland for portraying Aung San Suu Kyi not as a human rights activist, but as a realist politician in the very footsteps of her father, now comes out with his research to the international audience. Following the example of Mahbubani's *Can Asian Think?* Lubina shows the intellectual and philosophical tradition of Myanmar through the case study of Suu Kyi's political thought. It's a unique undertaking that presents Suu Kyi from an unexpected angle: as a theoretician and political thinker or sage. Both the scope of research done and the material presented are very impressive and rather unique, even on international scene. Prof. Bogdan Góralczyk, University of Warsaw, Former Ambassador to Myanmar This book is a well-documented and well-constructed, multilayered, complex, analytical work based on very rich research, interviews with Suu Kyi and personal observations of the Author, who displays unquestioned analytical skills. As such the book represents a pioneer work in Burmese studies. Prof. Agnieszka Kuszewska, Jagiellonian University in Cracow None of the numerous books and articles that I have read about Daw Aung San Suu Kyi dissects her political thoughts and background as thoroughly as the book written by Dr. Michał Lubina. He shows the political construction of her character, her struggle, her idealism, her sources of inspiration and her weaknesses. It is a necessary publication to read in order to understand historical and contemporary policymaking in today's Burma. Dr. Marion Sabrié, University of Rouen Normandy *The Moral Democracy* Business Expert Press

Through various case studies, this book shows the continuity of the close relationship between jubilees and university historiography and the impact of this interaction on the jubilee publications and academic heritage. Yet it also goes beyond the jubilee by presenting three other ways of writing university history.

Mountain Home Air Force Base began inauspiciously as a small effort to support and train B-24 combat aircrews for the rigors of World War II. Today it represents the only active-duty air force installation in the heart of Idaho. From its shadowy rebirth in the late 1940s to its buildup under Strategic Air Command, the base housed some of the cold war's most important assets in the battle against communism. Mountain Home's most recent and longest-serving tenant is the world-famous 366th Fighter Wing "Gunfighters." Under the stewardship of the Gunfighters, Mountain Home has been transformed from a remote, dusty World War II airstrip to one of the air force's premier training facilities, readying aircrews and their support agencies for the demands of modern warfare.

FUTURE OF THE PAST The historical events in the early centuries of the Srivijaya kingdom that ruled over Malay Archipelago and the arrival of colonising nations afterwards are examples of the region's interlinked past. It forged a historic root for cooperation within the countries in the region now under ASEAN. Consideration about the region's past record is what strongly tugged our editorial team's thoughts. History—or we could say the "past"—inevitably constructs the present and, consequently, our future. As we asked some of the people in the architectural practice regarding the role of the past, many hold that the past is an important aspect that we could learn from to live our present life. ARCHINESIA Bookgazine features built projects curated by our team. Among the projects, we look at the use of traditional building materials in Katamama Hotel by andramatin and the House in Cornwall Garden by CHANG Architects which belongs to a family of many generations. Can we take the past as something that bounds us, or builds us? We leave it for the reader to decide. BUILT

This cutting-edge book, located at the intersection of sociolinguistics and Hip Hop Studies, brings together for the first time an international group of researchers who study Hip Hop textually, ethnographically, socially, aesthetically, and linguistically. It is the harvest of dialogue between these two separate yet interconnected areas of study. A missing gap in the Hip Hop literature is the centrality and an in-depth analysis of the very medium that is used to express and perform Hip Hop - language. *Global Linguistic Flows* fills this gap.

Finalist, Celebrate 350 Award in American Jewish Studies Tells the remarkable story of the Jewish moguls in Hollywood who established the first anti-Nazi Jewish resistance organization in the country in the 1930s. In April 1939, Warner Brothers studios released the first Hollywood film to confront the Nazi threat in the United States. *Confessions of a Nazi Spy*, starring Edward G. Robinson, told the story of German agents in New York City working to overthrow the U.S. government. The film alerted Americans to the dangers of Nazism at home and encouraged them to defend against it. *Confessions of a Nazi Spy* may have been the first cinematic shot fired by Hollywood against Nazis in America, but it by no means marked the political awakening of the film industry's Jewish executives to the problem. *Hollywood's Spies* tells the remarkable story of the Jewish moguls in Hollywood who paid private investigators to infiltrate Nazi groups operating in Los Angeles, establishing the first anti-Nazi Jewish resistance organization in the country—the Los Angeles Jewish Community Committee

(LAJCC). Drawing on more than 15,000 pages of archival documents, Laura B. Rosenzweig offers a compelling narrative illuminating the role that Jewish Americans played in combating insurgent Nazism in the United States in the 1930s. Forced undercover by the anti-Semitic climate of the decade, the LAJCC partnered with organizations whose Americanism was unimpeachable, such as the American Legion, to channel information regarding seditious Nazi plots to Congress, the Justice Department, the FBI and the Los Angeles Police Department. *Hollywood's Spies* corrects the decades-long belief that American Jews lacked the political organization and leadership to assert their political interests during this period in our history and reveals that the LAJCC was one of many covert "fact finding" operations funded by Jewish Americans designed to root out Nazism in the United States.
