How To Draw Dogs For Kids Independently Published

A bestselling modern classic—both poignant and funny—narrated by a fifteen year old autistic savant obsessed with Sherlock Holmes, this dazzling novel weaves together an old-fashioned mystery, a contemporary coming-of-age story, and a fascinating excursion into a mind incapable of processing emotions.

Christopher John Francis Boone knows all the countries of the

world and their capitals and every prime number up to 7,057. Although gifted with a superbly logical brain, Christopher is autistic. Everyday interactions and admonishments have little meaning for him. At fifteen, Christopher's carefully constructed world falls apart when he finds his neighbour's dog Wellington impaled on a garden fork, and he is initially blamed for the killing. Christopher decides that he will track down the real killer, and turns to his favourite fictional character, the impeccably logical Sherlock Holmes, for inspiration. But the investigation leads him down some unexpected paths and ultimately brings him face to face with the dissolution of his parents' marriage. As Christopher tries to deal with the crisis within his own family, the narrative draws readers into the workings of Christopher's mind. And herein lies the key to the brilliance of Mark Haddon's choice of narrator: The most wrenching of emotional moments are chronicled by a boy who cannot fathom emotions. The effect is dazzling, making for one of the freshest debut in years: a comedy, a tearjerker, a mystery story, a novel of exceptional literary merit that is great fun to read.

Dogs The Rosen Publishing Group, Inc

"What Mr. Rogers was to children, Alexandra Horowitz is to dogs: a wise and patient observer who seeks to intimately know a creature... Her chapters, packed with close observations about canine cognition and behavior, are mini-mood lifters." —NPR, Maureen Corrigan on *Fresh Air* What is it like to be a puppy?

Author of the classic *Inside of a Dog*, Alexandra Horowitz tries to find out, spending a year scrutinizing her puppy's daily existence and poring over the science of early dog development Few of us meet our dogs at Day One. The dog who will, eventually, become an integral part of our family, our constant companion and best friend, is born without us into a family of her own. A puppy's critical early development into the dog we come to know is usually missed entirely. Dog researcher Alexandra Horowitz aimed to change that with her family's new pup, *Quiddity* (Quid). In this scientific memoir, she charts Quid's growth from wee grub to boisterous sprite, from her birth to her first birthday. Horowitz follows Quid's first weeks with her mother and ten roly-poly

littermates, and then each week after the puppy joins her household of three humans, two large dogs, and a wary cat. She documents the social and cognitive milestones that so many of us miss in our puppies' lives, when caught up in the housetraining and behavioral training that easily overwhelms the first months of a dog's life with a new family. In focusing on training a dog to behave, we mostly miss the radical development of a puppy into themselves—through the equivalent of infancy, childhood, young adolescence, and teenager-hood. By slowing down to observe Quid from week to week, *The Year of the Puppy* makes new sense of a dog's behavior in a way that is missed when the focus is only on training. Horowitz keeps a lens on the puppy's point of view—how they (begin to) see and smell the world, make meaning of it, and become an individual personality. She's there when the puppies first open their eyes, first start to recognize one another and learn about cats, sheep, and people; she sees them from their first play bows to puberty. Horowitz also draws from the ample research in the fields of dog and human development to draw analogies between a dog's first year and the growing child—and to note where they diverge. *The Year of the Puppy* is indispensable for anyone navigating their way through the frustrating, amusing, and ultimately delightful first year of a puppy's life.
