The Pacific War is an umbrella term that refers collectively to a disparate set of wars, however, this book presents a strong case for considering this assemblage of conflicts as a collective, singular war. It highlights the genuine thematic commonalities in the legacies of war that cohere across the Asia-Pacific and shows how the wars, both individually and collectively, wrought dramatic change to the geo-political makeup of the region. This book discusses the cultural, political and social implications of the Pacific War and engages with debates over the war's impact,

legacies, and continuing cultural resonances. Crucially, it examines the meanings and significance of the Second World War from a truly international perspective and the contributors present fascinating case studies that highlight the myriad of localised idiosyncrasies in how the Pacific War has been remembered and deployed in political contexts. The chapters trace the shared legacy that the individual wars had on demographics, culture and mobility across the Asia Pacific, and demonstrate how in the aftermath of the war political borders were transformed and new nation states emerged. The book also considers racial and sexual tensions which accompanied the arrival of both Allied and Axis personnel and their long lasting consequences, as well as the impact returning veterans and the war crime trials that followed the conflict had on societies in the

region. In doing so, it succeeds in illuminating the events and issues that unfolded in the weeks, months, and indeed decades after the war. This interdisciplinary volume examines the aftermaths and legacies of war for individuals, communities, and institutions across South, Southeast, and East Asia, Oceania, and the Pacific world. As such, it will be welcomed by students and scholars of Asian history, modern history and cultural history, as well as by those interested in issues of memory and commemoration.

The Holocaust Memorial Museum reveals and traces the transformation of ancient Jewish symbols, rituals, archetypes and

narratives deployed in these sites. Demonstrating how cloaking the 'secular' history of the Holocaust in sacred garb, memorial museums generate redemptive yet conflicting visions of the meaning and utility of Holocaust memory.

This book, now in its fourth edition, is unique in detailing in depth the technological basis of radiation therapy. Compared with the previous edition, all chapters have been rewritten and updated. In addition, new chapters have been included on various topics, including the use of imaging in treatment planning, second malignant neoplasms due to irradiation, and quality assurance in radiation oncology. The book is divided into two sections. The first covers basic concepts in treatment planning, including essential physics, and explains the various approaches to radiation therapy, such as intensity-modulated radiation therapy, tomotherapy, and high and low dose rate brachytherapy. The second part documents the practical clinical applications of these concepts in the treatment of different cancers. All of the chapters have been written by leaders in the field. This book will serve to instruct and acquaint teachers, students and practitioners in the various fields of oncology with the basic technological factors and approaches in radiation therapy.

The Holocaust/Genocide Template in Eastern Europe discusses the "memory wars" in the course of the post-Communist re-narration of history since 1989 and the current authoritarian backlash. The book focuses specifically on how "mnemonic warriors" employ the "Holocaust template" and the concept of

genocide in tendentious ways to justify radical policies and externalize the culpability for their international isolation and worsening social and economic circumstances domestically. The chapters analyze three dimensions: 1) the competing narratives of the “universalization of the Holocaust” as the negative icon of our era, on the one hand, and the “double genocide” paradigm, on the other, which focuses on “our own” national suffering under – allegedly “equally” evil – Nazism and Communism; 2) the juxtaposition of post-Communist Eastern Europe and Russia, reflected primarily in the struggle of the Baltic states and Ukraine to challenge Russian propaganda, a struggle that runs the risk of employing similarly distorting and propagandistic tropes; and 3) the post-Yugoslav rhetoric portraying one’s own group as “the new Jews” and one’s opponents in the wars of the 1990s as (akin to) “Nazis”. Surveying major battle sites in this “memory war”: memorial museums, monuments, film and the war over definitions and terminology in relevant public discourse, *The Holocaust/Genocide Template in Eastern Europe* will be of great interest to scholars of genocide, the Holocaust, historical memory and revisionism, and Eastern European Politics. This book was originally published as a special issue of the *Journal of Genocide Research*.

People worry that computers, robots, interstellar aliens, or Satan himself – brilliant, stealthy, ruthless creatures – may seize control of our world and destroy what's uniquely valuable about the human race. Cultural Evolution and its Discontents shows that our cultural systems – especially those whose last names are "ism" – are already doing that, and doing it so adeptly that we seldom even notice. Like other parasites, they've blindly evolved to exploit us for their own survival. Creative arts and humanistic scholarship are our best tools for diagnosis and cure. The assemblages of ideas that have survived, like the assemblages of biological cells that have survived, are the ones good at protecting and reproducing themselves. They aren't necessarily the ones that guide us toward our most admirable selves or our healthiest future. Relying so heavily on culture to protect our uniquely open minds from cognitive overload makes us vulnerable to hijacking by the systems that co-evolve with us. Recognizing the selfish Darwinian functions of these systems makes sense of many aspects of history, politics, economics, and popular culture. What drove the Protestant Reformation? Why have the Beatles, The Hunger Games, and paranoid science-fiction thrived, and how was hip-hop co-opted? What alliances helped neoliberalism out-compete Communism, and what alliances might enable environmentalism to overcome consumerism? Why are multiculturalism and university-trained

elites provoking working-class nationalist backlash? In a digital age, how can we use numbers without having them use us instead? Anyone who has wondered how our species can be so brilliant and so stupid at the same time may find an answer here: human mentalities are so complex that we crave the simplifications provided by our cultures, but the cultures that thrive are the ones that blind us to any interests that don't correspond to their own.

The White Table is set in many mess halls as a symbol for and remembrance to service members fallen, missing, or held captive in the line of duty. Solitary and solemn, it is the table where no one will ever sit. As a special gift to her Uncle John, Katie and her sisters are asked to help set the white table for dinner. As their mother explains the significance of each item placed on the table Katie comes to understand and appreciate the depth of sacrifice that her uncle, and each member of the Armed Forces and their families, may be called to give. It was just a little white table... but it felt as big as America when we helped Mama put each item on it and she told us why it was so important. "We use a Small Table, girls," she explained first, "to show one soldier's lonely battle against many. We cover it with a White Cloth to honor a soldier's pure heart when he answers his country's call to duty." "We place a Lemon Slice and Grains of Salt on a plate to show a captive soldier's bitter fate and the tears of families waiting for loved ones to return," she continued. "We push an Empty Chair to the table for the missing soldiers who are not here..." The poet and founder of the music collective Flowers for the Living pays tribute to all Black women by focusing on visionaries and leaders who are making history right now, including Ava DuVernay, Janelle Monae, Kamala Harris, Misty Copeland, Nikole Hannah-Jones, Robin Roberts, Roxane Gay, and Simone Biles—with this compilation of celebratory odes featuring full-color illustrations by Melissa Koby. Black women are exceptional. To honor how Black women use their minds, talent, passion, and power to transform society, Harold Green began writing love letters in verse which he shared on his Instagram account. Balm for our troubled times, his tributes to visionaries and leaders quickly went viral and became a social media sensation. Now, in this remarkable collection, Green brings together many of these

popular odes with never-before-seen works. A timely celebration of contemporary Black figures who are making history and shaping our culture today, *Black Roses* is divided into five sections—advocates, curators, innovators, luminaries, trailblazers—reflecting the diversity of Black women’s achievements and the depth of their reach. These inspiring changemakers are leaving their mark on the world by creating new beauty in their respective art forms, heading movements, fighting for equality and to change the status quo, and championing new definitions of what’s possible in every meaningful way. Green lifts them up to create meaningful connections between these figures and our own lives and experiences. *Black Roses* spotlights and urges readers to learn more about Allyson Felix, Angelica Ross, Ava DuVernay, Bisa Butler, Bozoma Saint John, Charisma Sweat-Green, Dr. Eve Ewing, Dr. Janice Jackson, Dr. Johnnetta Cole, Eunique Jones-Gibson, Issa Rae, Janelle Monae, Jennifer Hudson, Jessica Matthews, Kamala Harris, Keisha Bottoms, Kimberly Bryant, Kimberly Drew, Lisa Green, Lizzo, Mandilyn Graham, Mellody Hobson, Michelle Alexander, Misty Copeland, Naomi Beckwith, Nikole Hannah-Jones, Phylicia Rashad, Rapsody, Raquel Willis, Robin Roberts, Roxane Gay, Shellye Archambeau, Simone Biles, Stacey Abrams, Tabitha Brown, Tamika Mallory, Tarana Burke, Tasha Bell, Tomi Adeyemi, and Tracee Ellis Ross.

Nonprofit leadership is messy Nonprofits leaders are optimistic by nature. They believe with time, energy, smarts, strategy and sheer will, they can change the world. But as staff or board leader, you know nonprofits present unique challenges. Too many

cooks, not enough money, an abundance of passion. It’s enough to make you feel overwhelmed and alone. The people you help need you to be successful. But there are so many obstacles: a micromanaging board that doesn’t understand its true role; insufficient fundraising and donors who make unreasonable demands; unclear and inconsistent messaging and marketing; a leader who’s a star in her sector but a difficult boss... And yet, many nonprofits do thrive. Joan Garry’s *Guide to Nonprofit Leadership* will show you how to do just that. Funny, honest, intensely actionable, and based on her decades of experience, this is the book Joan Garry wishes she had when she led GLAAD out of a financial crisis in 1997. Joan will teach you how to: Build a powerhouse board Create an impressive and sustainable fundraising program Become seen as a ‘workplace of choice’ Be a compelling public face of your nonprofit This book will renew your passion for your mission and organization, and help you make a bigger difference in the world.
