This book contains six reproducible jigsaw units. Based on the principles of cooperative learning, jigsaw refers to a method of instruction in which students, working in groups, are dependent on the others in the group to gather information

on a topic and to complete a task. Using jigsaw ensures that every student is an active participant in the learning process. The units are designed for high school and adult students who need to improve their reading and discussion skills. These materials are designed for multi-level classes where the reading level ranges from intermediate to advanced level. The six topics in this book are: Illegal Gill Nets, Smoking Marijuana, Using Steroids, Immigration and Employment, Smoking Cigarettes in Public, and Seeing a UFO.

Move over, coloring books! Here's an

entirely new craft that kids will love: Paint by Sticker Kids. Paint by Sticker Kids is the same compelling craft first introduced in Paint by Sticker, but just for kids! The book includes everything you need to create 10 bright, playful, full-color illustrations—illustrated templates printed on perforated card stock, and 10 pages of stickers to fill in and create the artwork. The fun, vibrant images are rendered in “low-poly,” a computer graphics style using geometric polygon shapes to create a 3-D effect. As in paint-by-number, each template is divided into hundreds of spaces, each with a number that corresponds to a particular sticker. Find the sticker, peel it, and place it in the right space. Add the next, and the next, and the next and voila! It’s a rocket ship blasting through

space. A Tyrannosaurus rex prowling his domain. A pickup truck hauling its load. A friendly toucan hanging on his perch. Kids will love watching these pictures come to life. Plus, each is suitable for framing or the fridge.

From the illustrator of the #1 smash hit *The Day the Crayons Quit* comes an imaginative tale of friendship in a world where what makes us different isn't nearly as important as what makes us the same. When a boy discovers a single-propeller airplane in his closet, he does what any young adventurer would do: He flies it into outer space! Millions of miles from Earth, the plane begins to sputter and quake, its fuel tank on empty. The boy executes a daring landing on the moon . . . but there's no telling what kind of slimy, slithering,

tentacled, fangtoothed monsters lurk in the darkness! (Plus, it's dark and lonely out there.) Coincidentally, engine trouble has stranded a young Martian on the other side of the moon, and he's just as frightened and alone. Martian, Earthling—it's all the same when you're in need of a friend.

Rainy summer days are no match for a little astronaut who builds the perfect rocket ship for an indoor space

adventure to another galaxy, where the sky is his only limit! A stormy afternoon and an order from Mom to stay inside are no match for this little dreamer, who uses everyday household items—a rocket chair, a cardboard box, an old dish rag, and a super-duper imagination—to whip up a trip around the universe he won't soon forget. My Rainy Day Rocket Ship is a high-spirited, engaging salute to the imagination of Black boys who use their beautiful minds to transform the mundane into the extraordinary, dream out loud, and boldly go where their sky is the only limit.

When a family on a sailing outing gets stuck in a surprise storm, there's only one boat tough enough to handle the rocking waves and howling winds: Blue Boat! Completing the primary-colored series of books that have won fans across the country, the team behind RED TRUCK and YELLOW COPTER present their third rhyming book about a vehicle

who saves the day.

Rocket to the Moon Courier Corporation

"I haven't read anything that has moved me this much since Wonder." —Jennifer Niven, author of *All the Bright Places* A space-obsessed boy and his dog, Carl Sagan, take a journey toward family, love, hope, and awe in this funny and moving novel for fans of *Counting by 7s*, *Walk Two Moons*, and *The Curious Incident of the Dog in the Night-Time*. 11-year-old Alex Petroski loves space and rockets, his mom, his brother, and his dog Carl Sagan—named for his hero, the real-life astronomer. All he wants is to launch his golden iPod into space the way Carl Sagan (the man, not the dog) launched his Golden Record on the Voyager spacecraft in 1977. From

Colorado to New Mexico, Las Vegas to L.A., Alex records a journey on his iPod to show other lifeforms what life on earth, his earth, is like. But his destination keeps changing. And the funny, lost, remarkable people he meets along the way can only partially prepare him for the secrets he'll uncover—from the truth about his long-dead dad to the fact that, for a kid with a troubled mom and a mostly not-around brother, he has way more family than he ever knew. Jack Cheng's debut is full of joy, optimism, determination, and unbelievable heart. To read the first page is to fall in love with Alex and his view of our big, beautiful, complicated world. To read the last is to know he and his story will stay with you a long, long time. "Stellar."
—Entertainment Weekly "Life-

embracing." —The Wall Street Journal "Works beautifully." —The New York Times Book Review "Irresistible." —The Chicago Tribune "The best I've read in a long, long time." —Holly Goldberg Sloan, author of *Counting by 7s* "Riveting, inspiring, and sometimes hilarious."
—Kirkus, starred review "A propulsive stream-of-conscious dive." —Publishers Weekly, starred review "A gift—a miracle." —Paul Griffin, author *When Friendship Followed Me Home* "Exuberant." —Booklist "Full of the real kind of magic." —Ally Condie, author of *Matched* "Absorbing, irresistible."
—Common Sense Media "Incredible."
—BookRiot "Full of innocence and unwavering optimism." —SLC "Inspiring."
—Time for Kids "Powerfully affirms our human capacity for grace and love and

understanding.” —Gary D. Schmidt,
